

Peter Lambrianakos

MANAGING PARTNER

plambrianakos@frlip.com
646-797-4353
New York

Peter Lambrianakos is a trial lawyer focused on patent infringement litigation in federal courts, the Patent Trial and Appeal Board, and the International Trade Commission. He has previously been named the 12th most active patent litigator in the country by Patexia for his sought-after advocacy in high-value patent disputes.

Peter's patent litigation experience covers a wide range of technologies and products, such as semiconductors, smartphones, software, acoustics, mobile payments, LED displays, and wireless communications. With a degree in computer science and engineering, he excels in explaining the complex innovations embedded within semiconductors, software, and other technologies to judges and juries.

Advising clients from pre-filing diligence through appeal, Peter has advocated in district court trials, oral hearings in the PTAB, and appeals before the Federal Circuit. He has represented patent owners and petitioners in over 250 *inter partes* review and covered business method review proceedings in the PTAB.

Peter regularly assists clients in obtaining litigation funding to pursue patent infringement cases and proceedings before the PTAB.

CREDENTIALS

- U.S. District Court, Southern District of New York
- U.S. District Court, District of New Jersey

Professional Memberships

- New York State Bar Association
- New York Intellectual Property Law Association

Representative Experience

- Successfully defended Singular Computing's patents at the PTAB and the Federal Circuit, resulting in a favorable settlement.
- Obtained a verdict of infringement at a jury trial against Amazon.com for infringement of an acoustic processing patent.
- Secured favorable settlements in litigation involving revolutionary noise cancellation technology from several major consumer products companies. Seventy IPR petitions were filed resulting in zero canceled claims.
- Represented an audio/video integration system company in its claims of patent infringement against several automotive manufacturers and suppliers. Defended the validity of the patents against more than 20 IPR petitions.
- Represented a patent owner in its claims of infringement involving semiconductor technology. Defended the validity of the patents against several IPR petitions and obtained favorable settlements.
- Represented an app developer in a patent infringement case against several smartphone companies.
- Defended a manufacturer of optical fiber testing equipment against patent infringement claims concerning OTDR equipment. Challenged the validity of the asserted patents in two IPR petitions and obtained a favorable settlement a short time later.
- Represented a semiconductor company in its claims of infringement of near field communications patents.

Recognition
